## SHANGHAI STRIKE NEWS.

### JARDINE'S STEAMER CREWS COME OUT.

### QUESTIONS IN PARLIAMENT.

Shanghai, June 10.  
The crews of Messrs. Jardine, Matheson and Company's steamers struck at nine o'clock last night. The steamers are laid up at the wharfsides. The Company proposes to take concerted action with the big shipping companies. The Nisshin Kisen Kaisha boats have so far adhered to schedule. The Fengyang Maru left Shanghai for Hankow this morning carrying passengers but no cargo, the former including representatives of Chinese associations known to be going to Nanking and Chinkiang with the object of disaffecting the crews of foreign steamers at those ports. Further Nisshin Kisen Kaisha sailings are unlikely. — *Reuter*.

### INFLAMMATORY HONG- KONG MESSAGES.

We have to-day received, with a request for publication, copies of two telegrams from the Federation of Chinese Labour Unions of Hongkong dealing with the Shanghai troubles. One of these is addressed to all Chinese Labour Federations, the Chinese Nationalist Revolutionary Party, all newspapers and Labour and Pessant Unions; whilst the other is to the Federation of British Trade Unions, the British Labour Party and the Japanese Labour Federations.

These messages are of a most inflammatory character, the latter of the two stating that there are "four hundred thousand workers united in our Federation and directly under Imperialist oppression." We refrain from publishing the text of the messages, and trust that the authorities are keeping a vigilant eye on the broadcasting of telegrams of this character.

### GENERAL STRIKE AT FOOCHOW.

Foochow, June 10.  
There has been a student demonstration and a general strike to-day. The situation is quiet but strained. — *Reuter*.

### COMMONS DEBATE.

London, June 9.  
In the House of Commons, replying to questions by Mr. F. W. Pethick-Lawrence and Mr. J. P. Trevelyan with regard to the troubles in China, Mr. McNeill emphasised that the international authorities on the spot were faced with a situation of imminent danger to life and property and could not wait to obtain the instructions of their Governments before taking the necessary steps to restore law and order. He deeply regretted that the attack of the forces of disorder was conducted behind a screen of misguided students, but the British Consul-General at Shanghai, with whom he understood the American, French, Italian and Japanese representatives fully agreed, had reported that the police were most patient and could not have acted otherwise than they did. The British Government was confident that the Chinese Government was anxious to co-operate with the other Governments concerned in reaching an equitable and satisfactory solution of the deplorable affair. He emphasised that law and order must be restored and maintained in the International settlement and that the Government would give all necessary support to British officials on the spot. He expressed sympathy with the Chinese people and deep regret that lives had been lost as the result of a misguided agitation. The policy of His Majesty's Government towards China, whose traditions and civilisation we admired, with whose national aspirations we sympathised, which was our ally in the war, and with which we were united by close and long standing ties, was animated with the sole concern that China should become peaceful and prosperous. The British Government recognised its obligation to help China in this task and looked to the forthcoming tariff conference to provide an opportunity of doing so in co-operation with other Powers. Meanwhile, he trusted that nothing would be done to prejudice or postpone those hopes.

Replying to Mr. Trevelyan with regard to the origin of the trouble in Shanghai, Mr. McNeill said that the accounts were conflicting but the policy of His Majesty's Government had long been to use its influence in China to ameliorate labour conditions. Mr. Ramsey MacDonald asked whether the Government was enquiring into the industrial origin of the troubles, and Mr. McNeill said they were inviting the fullest information with regard to the whole incident. He did not admit that the condition of the mills in Shanghai was the sole cause of the outbreak, and

### UNREST IN SWATOW.

### STUDENTS ON STRIKE.

A Swatow correspondent writes us under date of Monday as follows:—

As was expected, the whole of the Swatow students have gone out in sympathy with their Shanghai compatriots. During the last few days there has been much excitement in the schools and colleges; in fact, everywhere nothing but the Shanghai situation has been discussed. At last the students have taken concerted action as a protest but it appears that none of them yet know the real happenings in Shanghai.

The first minor demonstration took place yesterday. In the morning hundreds of students, boys and girls, with flags and banners paraded the streets, yelling and shouting "Down with Imperialism" and "Boycott the British and Japanese." They distributed pamphlets and strips of paper on which are written "Sympathize with the Shanghai students."

It is noteworthy that some fifty armed police gave them protection by accompanying them in the procession. Girl students even made speeches in the public thoroughfares, but few listened to them. Wherever they went they "preached the gospel" as one might say, and their gospel consists in pleading for sympathy with and unity of the Chinese nation and requesting all and sundry to go on strike. They have even approached the big compradors stores to stop catering for foreigners, particularly the British and Japanese, so that an anti-foreign feeling is being induced here. However, one can easily see that the agitation is chiefly centred on the British and Japanese nations. So far no strikes have taken place.

It is stated that up to the present the Consular Body has not assembled to discuss the situation, so that their respective nationals are in the dark as to the proper course of procedure in case of emergency. While on the subject, it may be mentioned that all the Consuls reside on the Swatow side of the harbour with the exception of the British Consul who stays in Kachio (on the other side) and has his Consulate there. This is most inconvenient both to his subjects and the British shipping firms. There is not a regular ferry service, and only those with private motor boats have easy access.

## KOWLOON TONG.

### BOARD OF DIRECTORS APPOINTED.

It will be learned with interest by all those connected with the Kowloon Tong development scheme that a Board of Directors has been appointed since the death of the late Hon. Mr. C. Montague Ede. The late Mr. Ede was the managing director and it became necessary, on his demise, to appoint a successor or successors. The following have been appointed a Board of Directors to carry on the work:— Mr. W. E. L. Shenton (chairman), Mrs. Montague Ede, The Hon. Mr. R. H. Kotewall, The Very Revd. Father Robert, Mr. J. M. Alves. The last two named have been instructed to examine fully the affairs of the Company and to report to the Board.

## LIMERICK CONTEST.

### Last Week's Winner.

There was not quite such a large entry for our Limerick Competition last week, but the Judge intimates that there was a marked improvement in the efforts sent in. The uncompleted Limerick was as follows:—

A thoughtful young lady named Flo  
Was giving advice to her beau.  
She said "You should save  
For a rainy day, Dave

The best line sent in, according to the Judge, was:—"For the Shroff is a Dollarous Joe." The author of this line is Mr. G. A. Simpson, 80, Jordan Road, Kowloon, to whom the prize of ten dollars has been forwarded by registered post.

## JUDGE'S REPORT.

Reporting on the entries, the Judge says:—"Fewer attempts were received this week, but the standard was much higher, and the selection of the winner from among the last ten was not easy. On consideration, I award the prize to the peculiarly atrocious pun of Mr. 197 (whoever he may be):—"For the Shroff is a Dollarous Joe." The next in merit was No. 141:—"Be wise, man; go East and get dough." I think this is a trifle forced and therefore it just fails. Other good efforts were:—

"Like the P. W. D., we'll go slow."  
"Go slow, bo; I know what you owe."  
"No sense (cents) spending dollars, you know."  
"Or you'll never sign letters per pro."

## JUDEX.

### A "BULL" FOR HIM.

An Irishman was out gunning for ducks with a friend who noticed though Mike aimed his gun several times; he did not shoot. At last he said: "Mike why did not you shoot that time? The whole flock was right in front of you." "Oi know, said Mike, "but every time Oi aimed me gun at a duck another one come right between us."

One wonders whether the Consulate could not be removed to the Swatow side if only to be easily accessible to British subjects in urgent cases of necessity and from the point of business convenience. In Kachio there are only a handful of Britishers, while Swatow is the business centre. This point is respectfully commended to the attention of the British Minister in Peking. One further point. Perhaps a British warship can be spared and despatched to Swatow to protect British life and property and not let both run needless risks. I feel sure that an abler pen than mine will endorse all the above facts.

## THE "TAISHAN."

### UNIQUE LAUNCHING CEREMONY.

### AT TAIKOO DOCK.

A dual christening ceremony, unique insofar as Hongkong is concerned, marked the launching of the "Taishan" at Taikoo Dock this morning. Built to the order of the Hongkong, Canton and Macao Steamboat Company, the Taishan is the most up-to-date and speedy vessel yet built for river traffic. A description of the vessel appears on another page.

The ceremony was performed by the Misses Joyce and Dorothy Holyoak, both bottles bursting simultaneously, and the vessel gliding gracefully into the water, amidst cheering and the noise of Chinese crackers.

The party, numbering well over a hundred and including H.E. the Governor (Sir R. E. Stubbs, K.C.M.G.), H.E. the General Officer Commanding (Major-General C. C. Luard) and Mrs. Luard, Hon. Sir Claud Svern, Hon. Mr. and Mrs. P. H. Holyoak, Commodore and Miss Stirling, Mr. G. M. Young, Mr. and Mrs. J. Reid, Mr. and Mrs. Douglas, Mr. R. M. Dyer, etc., afterwards adjourned to a specially erected marquee where refreshments were provided.

## GOOD LUCK.

Mr. G. M. Young, toasting the "Taishan" said:—"Your Excellencies ladies and gentlemen, On behalf of the Taikoo Dockyard, I thank you all for coming to see the launch of the latest and most up-to-date vessel yet built for the traffic between this Colony and the famous city of Canton." We were very gratified to receive the order from our friends, the Hongkong, Canton and Macao Steamboat Co., and trust that our efforts to give them of our best will prove in every way satisfactory, and that the vessel will become the favourite one for passengers of all classes, as well as for cargo. As the fame of Taishan, the great mountain of China, is known to millions, so I trust will the fame of the steamer, which has just been launched by the Misses Joyce and Dorothy Holyoak, spread through every district from which passengers and cargo come for conveyance on these waters, not only as the first steamer that has been christened by two ladies, but that this brought a double portion of good luck to the steamer and those that travel by her. I shall be very pleased if the young ladies will each accept a memento from the Taikoo Dockyard of this fortunate occurrence and hope that you will all join in drinking long life and prosperity to the "Taishan."

MR. HOLYOAK'S REPLY.  
The Hon. Mr. P. H. Holyoak, on behalf of the owners of the new vessel, expressed thanks for the good wishes of all, and congratulated the Taikoo Dock on the very successful launch accomplished. He did not doubt, judging by the plans and by what he had already seen of the Taishan, that she was likely to prove very popular. When times had become a little more normal, he said, and when trade conditions had once more reached the old standard, he felt sure that the vessel's records would surpass anything hitherto attained by any vessel on the Canton run. (Applause).

Mr. Holyoak also expressed thanks for the honour done his family in asking his daughters to launch the boat. In a way the ceremony was unique. He did not know if a dual christening ceremony had been recorded elsewhere, but it was certainly new to Hongkong. Mr. Holyoak also referred to the fact that his wife, several years ago, launched a vessel of the same name at the Hongkong and Whampoa Dock. In conclusion, Mr. Holyoak expressed thanks for the charming gifts to his daughters, and toasted the future prosperity of the Taikoo Dockyard. (Applause).

Mr. J. Reid, replying, said he hoped the Taishan would prove a great success. He pointed out

## THE "TAIYUAN."

### LINK WITH HONGKONG SEVERED.

After having sailed between Hongkong and Australia for nearly 40 years, the s.s. Taiyuan will not be seen again in this port. Such is the information just received by Messrs. Butterfield and Swire, the local agents for the Australia and Oriental Line, who announce the cancellation of the previously advertised sailing date.

The old s.s. Taiyuan, together with her sister ship, the s.s. Changsha, enjoys what is, perhaps, a unique record in shipping. Ever since they were constructed by Messrs. Scott and Co., of Greenock, in 1886, they have been employed on the Hongkong-Australia run, first under the flag of the China Navigation Company and later under the flag of the Australia and Oriental Line (Messrs. G. S. Yuill and Co., of Sydney). They are now being taken off to make way for the s.s. Changsha and the s.s. Taiping, being built by the Hongkong and Whampoa Dock Company. The s.s. Changsha was launched in April and will take the s.s. Taiyuan's place by the middle of next month, and the s.s. Taiping, which is being launched to-morrow, will be ready to take the place of the s.s. Changsha by early September. The new boats will have the most up-to-date passenger accommodation, and so far as luxury and comfort are concerned have been described as "miniature liners."

It is interesting to note that the Taiyuan and Changsha, with the old-fashioned "fiddle" bows, were two of four sister ships turned out by Messrs. Scott and Co., in 1886. The other two ships were the s.s. Chingtu and the s.s. Tainan, sold to a Norwegian firm, of Bergen. All four vessels were identical in practically every particular, being 2,369 tons gross, 315.2 feet in length, 38.2 in breadth and 23.8 feet deep.

The passing of these old ships breaks an interesting link with the past, and there will be many who will learn of their removal with regretful sentiments.

## STINNES FIRM'S CRISIS.

### A HOPEFUL OUTLOOK.

London, June 9.  
In connection with the position of the Stinnes firm, which is in financial difficulties, the Stinnes newspaper *Deutsche Allgemeine Zeitung* admits that reorganisation is proceeding, not in connection with the "Stinnes concern" the Siemens Rheinfelde Schuckert Union but in connection with the firm Hugo Stinnes Muelheim-Ruhr. The journal expects that, with the assistance of the banks, the present reorganisation will lead to renewed activity.

It is stated positively from Berlin that there was a conference of bankers on June 5th, under the chairmanship of the president of the Reichsbank, to investigate the financial condition of the firm, and a scheme for reorganisation of the concern was prepared under which Hugo Stinnes, Junior, takes over the general direction, while three banking experts will join a supervisory board for maritime transport and overseas trade.

It is understood that the big banks have guaranteed financial support to the extent of forty-four millions of reichsmarks. The foreign credits of the firm have still a considerable time to run. — *Reuter*.

## TO-DAY.

Closing Exchange 2s. 3.	5/16
Lighting Up-Time 7.07 p.m.	
Barometer 2 p.m.	29.68
Temperature 2 p.m.	82
Humidity 2 p.m.	67

that Taikoo had now a fine empty berth, and if an order was sent quickly he thought they might perhaps turn out a little better and a little faster ship. (Applause).

## LIVELY CANTON DOINGS.

### CHRISTIAN COLLEGE UNDER SIEGE.

### A FOREIGNER WOUNDED.

The Canton Christian College on Honam Island is now in a state of siege, the foreigners resident at the College have been ordered to leave. A student and a foreigner have been wounded by stray bullets and an American gunboat is standing by to take off the American missionaries and others connected with the College.

This is the latest information following on the story of the launch on which were Mr. and Mrs. Crampton and Mr. and Mrs. Ogden were fired at. The writer states that the situation is becoming more tense and that Shamsen is prepared for defence if necessary. The four thousand students of the Canton Christian College have ordered the foreigners to leave and the College is at present surrounded by troops.

## BATTLE EXPECTED.

### (Our Own Correspondent.)

Canton, June 9th.  
Rumour was rife yesterday that a combined naval and military attack would be launched by the Cantonese against the Yunnanese. This battle was timed for 4 p.m. but except for a few bullets flying across the harbour, nothing of any importance happened.

In the meantime there was a great scramble among the cargo boats and sampans to get to safety and many boatpeople took protection immediately opposite to Shamsen, between foreign gunboats and the shore. At 5 p.m. activities were noticeable between Wongshe and Shek Wai Tong where it was rumoured that 3,000 Cantonese troops were stationed and that these men were to try and get across to the Canton side. After an hour or so of firing, the attempt proved fruitless and sporadic firing occurred all night.

## FIERCE FUSILADE.

Shipping between Honam and Canton continued all through the day and night and at 1.15 this morning a battle royal was staged, machine guns playing an important part. This fierce fusilade was kept up for the best part of half an hour, when the firing almost ceased until five o'clock this morning when another sharp encounter took place. It proved that the Cantonese made a determined attempt to get across to the Canton side with no success, the attempt being repulsed with heavy casualties.

There seems to be no change in the situation at all. The Yunnanese are firmly established on the mainland and will take some driving out. Firing across from Honam will never dislodge them and the only chance that the Cantonese have is if Hsu Sun-chi leaves Swatow and comes to their assistance. This is very doubtful, as the Yunnanese have a strong force waiting them at Shek Pi, a few miles outside Tungshan. The Yunnanese at this spot have taken over the defences and dugouts that were made for the Government by Russian soldiers and which are quite modern. Should Hsu Sun-chi by chance prove victorious, the Yunnanese would be in a very sorry plight, as a way of retreat would be cut off; they know this and are determined to come out on top.

The Yunnanese were around early yesterday morning removing their dead, each body being properly dressed for interment and a good coffin provided, the usual obsequies being observed. This will serve to show how well organised the whole of these men are, while on the other side the Cantonese are throwing their dead into the river, numbers of corpses having been seen floating down the river.

Yesterday a motor boat was fired on by both sides and the coxswain and the engineer were both killed, the boat drifting broadside down the river until it was taken by one of the "Red" gunboats.

## "LUNGSHAN" IN THICK OF IT.

The river steamer Lungshan, lying at the buoy just off Shamsen yesterday afternoon, was in the thick of it for a short time and one Chinese woman passenger was shot in the foot. The Jardine tug-boat Indo China, which was lying alongside, was also badly peppered and one of her crew was killed.

A Yunnanese soldier was killed outside the Power Station this morning. Several men tried to remove the body, when they were spotted from the other side by rival troops, who immediately opened fire. Eventually a few sand bags were put up and the body was removed under cover.

A more determined attack is predicted for to-night, when a combined attack from both ends may take place. Last night a one-inch shell went into the Sun Company's building and passed through the perfume counter without even exploding. The building has been in the thick of it, and most of the casualties to the Yunnanese have occurred quite close to it.

The U.S.S. Pampanga has gone down to the Canton Christian College to protect foreign interests there. The College residents had to come to Canton via Whampoa this morning to get provisions as it was impossible to get through "No Man's Land." This journey took four and a half hours; if taken direct it is only a twenty minutes' trip.

## "WING FUNG" NEUTRAL?

The Wing Fung is now half way down the river between Canton and Whampoa. Various rumours are afloat concerning her, and the general belief now is that she has turned neutral.

So far, foreigners are safe, most of the outlying residents having come on to the Shamsen. Now that the river steamers are lying in the river the only means of reaching them is through Shamsen and thence by launch or sampan. Consequently Shamsen has become a thoroughfare for refugees going to Hongkong and it is impossible to move though the central streets on account of the numbers of Chinese refugees.

## AGAINST THE BOLSHEVICS.

A series of circulars has been issued by the Yunnanese and Kwangsi military leaders, who also claim to be the true disciples of the Ku mingtang. One of these states that all should unite to overthrow the Bolsheviks, and that "people who have firearms, knives or pens should use them in this cause."

Another of these circulars states that Russian funds are assisting the Bolsheviks in Canton, it being added that the latter have "a tongue of honey but a heart of gall."

## PROTECTING FOREIGNERS.

Under instructions from their Consuls, foreigners from the outlying districts near Canton are coming either into Shamsen or the Canton Christian College on Honam; as well as to Paak Hok Tung. At the latter two places, they are being protected by marines from British and American gunboats. A concentration camp for these foreigners

## EARLIER TELEGRAMS.

## OBITUARY.

London, June 9.

The death is announced of Mr. Robert Anderson Mowat.—*Reuter.*  
[Mr. Robert Anderson Mowat was born in the year 1843, son of the late Mr. Joseph Mowat of Edinburgh. He was educated in Edinburgh and at the University College, London. He passed a competitive examination and was appointed a student interpreter in the China Consular establishment in 1864 and was acting interpreter at H.B.M. Consulate at Hankow during part of the year 1866. He was acting Law Secretary of H.B.M. Supreme Court for China and Japan at Shanghai in 1867 and 1868, being appointed to the substantive post in the latter year. He was called to the Bar at the Inner Temple in 1871, the year of his marriage. He later occupied the following positions: Acting Assistant Judge of the Supreme Court, 1876-78; Acting Judge, 1878; Assistant Judge and Registrar, 1878; Acting Chief Justice, 1879, 1881 and 1888-89; Judge of H.B.M. Court for Japan, April 1891, but remained, at the request of the Secretary of State, at Shanghai as Acting Chief Justice and Acting Consul General till October 1891, when he took up his post in Japan. He retired on pension in 1897 and has been residing since at Hove.]

Paris, June 9.

The death is announced of the French explorer Aguste Pavie.—*Reuter.*

## ANGLO-FRENCH AGREEMENT.

Paris, June 9.

The newspapers emphasise the importance of the agreement between M. Briand and Mr. Chamberlain.

The *Petit Parisien* says the proposed pact is superior to the preceding drafts inasmuch as it is no longer a question of Britain assisting France and Belgium but a firm determination of Britain to defend her own security on the Rhine and Scheldt.

The *Petit Journal* foresees a similar Franco-Italian-Austrian pact guaranteeing the frontiers of these countries. It says that Mr. Chamberlain and M. Briand are working to obtain the adhesion of Italy to the Anglo-French entente.

In the *Echo de Paris*, Pertinax criticises the proposed pact and declares that if such a system is confirmed it will be the end of any independent far seeing French policy.—*Reuter.*

Geneva, June 9.

Mr. Chamberlain interviewed by *Reuter*, made clear that the note regarding the security pact is to be presented in due course as the French statement made in connection with the agreement between the Allies and M. Briand said that Belgium had approved the note.—*Reuter.*

## LEAGUE LABOUR CONFERENCE.

Geneva, June 9.

The Labour Conference is passing through a crisis in consequence of conflicting views among the representative sections, of which the latest instance is the Conference's rejection, as result of "British amendments, of the draft of the convention providing for a weekly suspension of work for twenty-four hours in glass factories where tank furnaces are used. The decision is unfavourably commented on by the workers' group.

It is believed that an experimental system of having two readings of measures at different sessions has failed and a modification of the standing orders in regard to the composition of committees is likely to be undertaken in 1926.—*Reuter.*

## NORSE-AMERICAN CENTENARY.

Minneapolis, June 9.

One of the main features of the four day celebrations by Norse-Americans of the centenary of the landing of the first Norwegian colonists in the United States was the address of President Calvin Coolidge, who pointed to the success of the United States in fusing together the diverse peoples as an example to the world in an effort to bring about the fraternity and co-operation of peoples of apparently conflicting interests.—*Reuter's American Service.*

## COTTON FUTURES.

Washington, June 9.

The Department of Agriculture has amended the regulations under the Cotton Futures Act so as to make the transfer of a unit of certificated cotton for delivery on future contracts 25 instead of 100 bales. The amendment is effective from June 15, and applies to the transfer between markets and does not affect transfers within the market.—*Reuter's American Service.*

## CANADIAN MOUNTED POLICE.

Washington, June 9.

Official circles are interested in telegrams from Ottawa, stating that Canada has decided to send mounted police to the Arctic to establish patrols on the islands north of the mainland.—*Reuter's American Service.*

## SAMOS INSURRECTION.

Athens, June 9.

The insurrection at Samos is practically ended. Three insurgents were killed in the bombardment by the flotilla from Athens. Others fled but will be rounded up. The Greek troops entered the capital and order was soon restored.—*Reuter.*

## THE BALLOON RACE.

London, June 9.

The German steamer *Vaterland* wirelessly that she picked up the American balloon *Goolyear-the-Third* off Ushant last evening. The crew were saved.—*Reuter.*

## THE S.S. TAISHAN.

LAUNCHING AT TAIKOO TO-DAY.

The Taikoo Dockyard and Engineering Co. of Hongkong, Ltd., the twin-screw river steamer Taishan, of the following dimensions.

Length over-all ..... 300'6"  
Length between perpendiculars ..... 290'0"  
Breadth extreme ..... 56'2"  
Breadth moulded ..... 54'0"  
Depth moulded to saloon deck ..... 22'6"  
Depth moulded to main deck ..... 13'6"

The vessel has a double bottom fitted all fore and aft, two large cargo holds and a smaller hold specially fitted up for the carriage of silk. There are three decks, accommodation being provided on the saloon and boat decks for 49 first class passengers and 24 second class. Intermediate passengers are berthed aft on saloon deck in a large deckhouse, while the third class are carried on the main deck. The first class passengers are accommodated in 23 single-berthed cabins, 10 double-berthed cabins and two family cabins of three berths each. Seven pairs of the single-berthed cabins are convertible into double-berthed cabins by means of a communicating door. Four of the staterooms have been specially fitted up as "cabins de luxe," each having its own decorative scheme; private bath rooms are also attached to these cabins. The dining saloon, which is situated forward on saloon deck, has a height of 11 feet and is entirely free of pillars.

Splendid Dining Saloon.

Particular care and attention has been given to the design of

this room, which is about 42 feet square and will form a special feature of the vessel, everything having been carefully studied to give a light and airy appearance. Normally, the saloon can dine 48 persons at small tables for four persons, but these tables can be extended so as to accommodate a greater number when required. The floor of the saloon is laid with teak parquet and the corridors in the first class accommodation have been laid with rubber tiling. On the boat deck adjoining the main entrance to cabins a smokers room has been arranged and is designed on the English style, with oak beams and panelling, all the fittings being in keeping. The seats are upholstered in leather, and with the comfortable lounge chairs, card tables and other fittings which are provided, it is bound to be a very popular room.

The captain, officers, engineers, wireless room and navigating quarters have been placed on a deck somewhat higher than the passenger deck, forming a citadel, which meets all the special requirements of the Anti-Piracy Committee. The firemen and engine room staff are housed convenient to the engine room and gridded off from the main deck, so that they cannot be interfered with in the event of piracy. Electric light is fitted throughout the vessel and numerous fans provided, hot and cold water service is laid on to all wash basins throughout the vessel.

## A First-class Boat.

The machinery, which consists of two sets of four crank balanced engines with four boilers, has been constructed by the Taikoo Dockyard and Engineering Co. and is designed to give the vessel a speed of 15 knots on service, but an extra knot is anticipated in trial.

The Taishan being the first vessel this firm have constructed for

## GOLDEN JUBILEE.

ST. JOSEPH'S COLLEGE CELEBRATIONS.

There was a large attendance of old boys at the meeting held at the St. Joseph's College yesterday afternoon, when the forthcoming golden jubilee celebrations were discussed.

The Rev. Brother Aimar supported by Mr. H. Dickson presided.

It was decided that the celebrations should extend over three days, the 8th, 9th and 10th of November. On the first day, which will be Sunday, a Thanksgiving Service followed by High Mass will be held at 10.00 o'clock at the Catholic Cathedral in the morning. It was hoped that the new building would be formally opened on the next day but His Excellency, the Governor requested that it be opened before his departure. The date has therefore been fixed for the 28th inst. at 5.00 p.m. and on the 6th. November the Old Boys will be "At Home" to friends during which the new premises will be opened to inspection. Benediction at 6 p.m. will be followed by a banquet in the evening.

The last day will be entirely devoted to the present pupils of the College. There will be an athletic meeting at Happy Valley in the afternoon and in the evening there will be a cinematograph show.

The Hongkong, Canton and Macao Steamboat Co., Ltd., no effort has been spared to turn out a first class vessel suitable in every way for the Hongkong-Canton run.

The superintendence of the vessel during construction has been in the hands of Mr. F. W. James, the Company's Superintendent, and Mr. Kew.

## THE SHANGHAI RIOTS.

### TRIAL OF DISTURBERS.

#### Strike Believed Over.

Shanghai, June 9.—The authorities to-night express the belief that the strike, so far as the general strike is concerned, will terminate to-morrow. They predict the early dispersal of the guard units and the restoration of normalcy, although the shipping situation has not yet cleared up. Thousands of mill workers have resumed. —Our Own Correspondent.

#### H.M.S. Hawkins at Shanghai.

Shanghai, June 9.—H.M.S. Hawkins has put in to Woosung. Her departure for Singapore has been postponed indefinitely. —Reuter.

#### Domestics Returning.

Shanghai, June 9.—Apart from the shipping strike, Shanghai continues to settle down. The bakers resumed this morning, some shops have re-opened and domestics are returning to work. There have been no riots at the river ports, but much unrest is reported.

Women and children refugees from Kiangsu will arrive in Shanghai to-morrow.

Consular reports say that the Chungking students are agitating, but the two commanding Generals assure the Consuls they will maintain order and guarantee the safety of foreigners. —Reuter.

#### More Demands by the Students.

Peking, June 9.—The Students' Union here continues to pass extreme resolutions demanding, *inter alia*, all ricksha coolies in the Legation quarter to strike, that British or Japanese employed by the Government or Chinese firms be dismissed, that telegraph service and water be cut off from the Legation quarter, that the Government despatch troops to Shanghai and that the Chinese leave foreign employment. Up to the present there are no signs of any of these measures, being put into operation, and the suggested boycott also appears to be ineffective. —Reuter.

#### Support for Students.

Peking, June 9.—The vernacular papers report that Feng Yu-hsiang has issued a circular supporting the student agitators. Also that he has wired to Chang Tso-lin urging the militarists to co-operate with each other and with the people to obtain rights for the Chinese. Chang Tso-lin is reported to have replied agreeing to these sentiments, but it is believed the general is merely desirous of showing sympathy with a popular movement and does not intend any anti-foreign action. —Reuter.

Shanghai, June 9.—Dr. H. C. Chen, Chinese surgeon at the police hospital, testified at the Mixed Court in the riot cases that the victims received their wounds facing the guns. An examination of the wounds in the front portions of the bodies disclosed this fact.

The police prosecutor outlining the case insisted that the outbreak was the development of Bolshevik activities in which school boys had been made the "ignorant tools of Bolshevik plotters. The Rev. Harry Westridge, who has been fifteen years in China as a missionary of the China Inland Mission, who was caught in a stalled tram car in front of the Louza police station at the time of the shooting, testified that had the police hesitated an instant longer in firing they would have been trampled upon and the mob would have seized the Louza station. He asserted that the police had no other option than that of firing. Other witnesses corroborated this testimony.

Twenty-three persons scheduled to appear forfeited their bail of from \$5 to \$100. Twenty-three, including several who had been held, are being tried. The hearing is proceeding. —Our Own Correspondent.

#### The Trial Resumed.

Shanghai, June 9.—The trial was resumed at the Mixed Court to-day. Seventeen rioters out of the 29 forfeited their bail. Lengthy evidence was offered all through the day. The Rev. Harry Westridge, a China Inland Mission missionary, said that he was an eyewitness of the occurrence. On the afternoon of the May 30 which he recounted in minute detail.

Asked whether he considered the shooting necessary, he replied that as a missionary he hated shooting, but that if he had been an officer of the law responsible for the station which was attacked, he would have thought there was no option. He believed that there was

## FRANCE IN MOROCCO.

### MOSLEM GIFTS TO WOUNDED.

Foz, June 9.—All prominent Moslems in Foz visited the wounded soldiers to whom they brought many gifts. A gathering made in the Arab quarters yielded within a few hours 15,000 francs which the natives handed over to the French authorities to be distributed among the wounded of every religion.

General Lyautey is receiving from all parts of Morocco messages congratulating and thanking the troops. French warships have held up two German trawlers off Agadir in Moroccan territorial waters. The trawlers were taken to Mogador where they are being detained. —Havas.

M. Painleve Goes to Morocco. Paris, June 9.—In the Cabinet M. Painleve announced that he was going to Morocco this evening in an aeroplane accompanied by M. Eynac the Under Secretary for Air. —Reuter.

## GOLF.

The draw in the Junior Section Championship for the first round, which has to be played off by June 15, is as follows.—W. H. Edmonds v. P. Morrison; W. Paterson v. F. Oliver; J. Stewart v. E. Moore; J. H. Gelling v. D. J. Brown; D. Lyon v. J. McCubbin; J. Laing v. T. Bateman; C. A. Grimes v. R. F. Clark; C. H. Beardall v. B. Petheram. The first and second rounds and semi-finals will be over 18 holes and the final over 36 holes. The second round has to be finished by June 22. No dates have yet been fixed for the semi-finals and final.

#### Captain's Cup.

D. G. Bruce, with a score of 92—12=80, qualified in the Captain's Cup competition played off at Fanling between June 6 and 8.

no evidence to show that the students harboured any personal feeling against the police or vice versa.

Asked whose fault it was that the shooting took place, he replied that it was a misfortune. If the events as related had happened in England the result would have been the same. It was the students and not the police who were looking for trouble.

Drs. Muir and Chen gave evidence that they examined the wounded and dead rioters and in their opinion the bullets entered the bodies from the front or obliquely. One was hit in the back of the head. It is believed he was killed in the New World theatre on the 2nd of June. The case was remanded till to-morrow morning. Bail was offered for all the accused. —Reuter.

#### Workers Fired On.

Shanghai, June 9.—Chinese Merchant Volunteers this afternoon tried to incite the Chinese workers of the Belgian mill which is on Chinese territory to strike. The workers refused and a quarrel ensued in the course of which the Chinese Volunteers fired on the workers killing one, seriously wounding one and slightly injuring several others. —Reuter.

#### Japanese Pessimism.

Tokyo, June 9.—Jiji reports that at to-day's ministerial conference Baron Shidehara made a forecast that there would be a worse development in the economic phase of the Shanghai situation though rioting is decreasing. The Cabinet agreed that a more practical step toward the riot was impossible until the joint investigation committees' report had been received. —Reuter.

#### Report to Peking.

Shanghai, June 9.—The Chinese Minister At Large has reported to the Peking Government regarding the Shanghai shooting case that the attitude of the British Government was strong and that it would not prohibit shooting; that the attitude of the Japanese Government was rather amicable and that it was willing to order the Japanese Consul at Shanghai to act according to the circumstances. The American Government declared that the American navy was for the protection of foreign residents and that it would not interfere in other matters. The French Government was willing to order the French Consul at Shanghai to be cautious in using arms. —Tsun Wan Yat Po.

## MAJOR DI PINEDO IN ST. KILDA.

Melbourne, June 9.—Major Di Pinedo arrived at St. Kilda in the presence of a large crowd. —Reuter.

## THE COLONY'S HEALTH.

### LAST WEEK'S FIGURES.

The health return for last week contains eight cases of infectious disease, a slight improvement upon recent figures. Of these no less than five were cerebro-spinal fever, three of them being imported, two were enteric fever while the other was small-pox. All were Chinese. The deaths numbered four, three from enteric fever and one from cerebro-spinal fever, whilst influenza, which is not a notifiable disease, claimed one victim.

One case of rabies in a dog was also reported.

Monday's return shows an imported English case of enteric fever and an imported American case of paratyphoid fever.

## QUEEN'S THEATRE.

### CHARLES RAY REGISTERS NEW TRIUMPH.

Charles Ray has scored another screen triumph in "Two Minutes to Go," a corking story of college life by Richard Andre, which began an engagement at the Queen's Theatre last night.

Ray gives an excellent portrayal of a football hero in this admirable First National attraction. The charm and virility which has characterized Ray in past screen successes was never better exemplified than in his interpretation of the role of the college lad, who, through financial reverses, is compelled to quit the team and give his spare time to peddling milk as a means of working his way through school.

Because he is ashamed of the job and offers no explanation of his leaving the team, on which he has been the star player, Chet Burnett, portrayed by Ray, gains only the contempt of his classmates and his sweetheart.

The great day comes, however, when Chet saves his team from defeat and transforms a combination of misfortunes into happiness.

Ray is given excellent support by Mary Anderson, his leading lady, who makes a very charming little coed.

## COUNTY CRICKET.

## SEVERAL HIGH SCORES.

London, June 9.

Somerset at Taunton led over Essex in the first innings. Somerset scored 313 (Daniell 174, not out) and then 294 (Daniell 108, Bligh 71). Essex compiled 132, with White taking 6 for 36, and then 251 for 4 (Russell 111).

At Leicester, Nottingham beat Leicestershire by an innings and 155 runs. Leicestershire scored 253 and 101. Nottingham scored 509 for 7, declared (Carr 206, Walker 78).

Gloucestershire at Cheltenham beat Derby by three wickets. Derby compiled 197 and 178. Gloucestershire scored 278 (Dipper 74) and 98 for 7.

## TREBLE CENTURY.

At Lord's, Yorkshire beat Middlesex by an innings and 149. Middlesex scored 118. Robinson taking 5 for 52, and 137 (Stevens 65, Hearne 91). Yorkshire compiled 538 for 6, declared (Holmes 315, not out, Leyland 61, Sutcliffe 58).

Lancashire beat Surrey at Manchester by an innings and 17. Lancashire compiled 371 (Watson 120). Surrey scored 71, Macdonald taking 4 for 30, Tyldesley 3 for 7 and Parker 3 for 17, and then 283 (Sandham 117, Macdonald taking 6 for 102).

Northants beat Warwick at Northampton by ten wickets. Northants compiled 376 (Woolley 164 and Wright 112), and then 5 for 0. Warwick scored 122, Wright taking 5 for 65 and Jupp 4 for 17, and then 256 (Smith 50, Parsons 61), Thomas taking 6 for 77.

Sussex at Stourbridge beat Worcester by two wickets. Worcester scored 208 (Rogers 118, not out) Wansley taking 5 for 56, and

## LIVELY CANTON DOINGS.

(Continued from Page 1.)

has been provided at Paak Hoi Tung. Most of the mission schools have been disbanded for the time being, the students proceeding to their homes. Quite a number of foreigners have come down to Hongkong, on advice from their Consuls. More than twenty arrived by river steamer last night, these including some of the staff of the American Presbyterian Blind School from Fong Tsuen, as well as a number of the blind children.

## "WINGFUNG" RUMOURS.

Seen to-day by a Telegraph representative, Dr. C. C. Wu, Foreign Minister in the Kuomintang Government, emphatically denied the report that the cruiser Wingfung, which is the largest and most powerful warship in the Government service, had been bought over by the Yunnanese. It was true, he said, that an attempt had been made to bribe the Commander and crew, but this overture did not materialise. The fact was that the Wingfung entered into an engagement with seven or eight small armed launches in the service of the Yunnanese when these became too troublesome on the river front, and eventually accompanied them to Honam. Yunnanese acquisition of the "Wingfung" would have rendered Honam untenable for the Cantonese with the big guns the boat possesses, and the fact that Honam and Whampoa are both still in the hands of the Kuomintang Government should go to disprove the rumour.

Regarding the military situation, Dr. Wu said that it is still devoid of important developments. The vital moment would come when the Kuomintang troops came to grips with the Yunnanese at Shaukiung from Swatow. He expected that the opposing forces would come into contact to-day, when the first important battle for the possession of Canton would be fought.

Dr. Wu denied that there was a mediation meeting between him and the Yunnanese and Kwangsi Commanders-in-Chief in Hongkong yesterday. All that happened was that he met General Hsu Shu-ching, a former Civil Governor of Canton and now Minister of the Interior in the Kuomintang, and had tiffin with the latter who had just returned from a visit to Peking.

## OTHER INCIDENTS.

A Canton correspondent writes us giving a few incidents in connection with the troubles there. He says that on Saturday a foreigner was riding along the Bund in a ricksha when the coolie pulling the vehicle was shot dead; thereupon the foreigner retreated to safety. The proprietor of a ricksha firm state that on Saturday two of his coolies were shot dead and one badly wounded for refusing hire.

A Japanese steamer is said to have left Canton on Monday without having discharged her cargo of coal, being unable to secure lighters. It is said that the electric light company has only sufficient coal for three days, and that they have already begun to cut down the service.

A traveller arriving from Canton this morning stated that one of his shot was fired at the Paul Beau yesterday morning, without doing any damage. She was a little early passing the forts at Whampoa yesterday. It would seem that Whampoa should only be passed during the daytime, as during the night the forts are liable to open fire (perhaps with heavy guns) at any time. The fire yesterday was heavier than ever before, but was higher up the reach than formerly, well above Shinmoon, which is now absolutely out of the line of fire altogether.

A persistent rumour went around Canton yesterday that 5,000 Cantonese attempted to cross the river from Honam to Canton early during yesterday morning in order to march around the city, well clear of the enemy's fire and attack the city from the rear. One report says the attempt was partly successful as only small detachments were actually driven back.

**JUVENILE COURT FOR MANILA.**

Study Made of Foreign Procedure.

Juvenile courts by next year will form part of the Philippine Islands' judiciary and juvenile reform systems if plans now under way do not miscarry, according to a prominent Government official, says the Manila Bulletin.

With leading officials whose work deals with criminality approving of the idea, as proposed not long ago by Director of Prisons Victorio, after his return from the World's Prison Congress in the United States last year, it is expected that the legislature will approve of the plans when formally submitted, it was declared.

In order to give insular officials in charge of juvenile reform a proper background for the establishment of juvenile courts, Assistant Public Welfare Commissioner Honorio Poblador is now on his way to the United States to make a thorough study of the system as it operates in the United States. Poblador besides attending a public welfare conference at Philippine representative will stay six months to make observations on juvenile institutions abroad.

The appointment of a probation officer made the public welfare commissioner to work with the courts of justice on cases of juvenile criminals during as well as before and after trial is calculated to prepare the ground for the establishment of juvenile courts later. The first probation officer, Arsenio Roldan appointed a few months ago, has had adequate preparation on juvenile delinquency work in the United States where he was a government pensionado.

**FEAR IN EUROPE.**

Isolated Disarmament Inadvisable.

Mr. J. R. Clynes, M.P., was the chief guest at a luncheon of the London Commercial Club recently at the Trocadero Restaurant. Mr. P. V. Cullen, the chairman of the club, presided.

Mr. Clynes spoke on "Commercial interest in the World's Peace." He said that commerce could not afford another war, or the next worse thing, a state of peace under arms. As Mr. Austen Chamberlain had pointed out, although peace was signed six years ago it was impossible not to feel that fear brooded over Europe, and unless they could realize this fear in the proper way they would find that Europe was moving on to a new catastrophe. Guaranteed European peace could arise only from the prior acceptance of arbitration on disputes; the gradual approach to international disarmament, and the consequent conviction that along these two roads nations would be secure from the cause of war in the future. They were trying to attract new recruits for the Air Service. All this meant new weapons while the old ones were retained. The matter of disarmament should not, in his opinion, be isolated, but a settled international policy.

Speaking of Russia, he said that Bolshevism was not the product of propaganda or of economic doctrine. It was a by-product of the war, and glorified a disposition to violence and lawless tendencies. It was possible only when the national mind was in a state of great unsettlement suitable to revolution and to the employment of unlimited force.

**A DOCTORS WAY WITH INDIGESTION**

The wife of a well-known physician became a sufferer from digestive disorder, and, naturally enough she asked her husband for a remedy. The doctor made her up some medicine of the kind usually given to mild cases, but it failed, so, without more ado, he prescribed Bismarck Magnesia and the results were astonishing, even to the medical man. From the first dose all traces of discomfort vanished, and the one-time sufferer could eat anything she fancied with relish and minus any fear of after-effects. More than that her complexion improved wonderfully, together with her general health and, as may be surmised the doctor is now one of the army of enthusiastic medical men who praise Bismarck Magnesia and recommend it in cases of stomach trouble. This preparation is readily obtainable at any chemist's and any reader who is in need of a real remedy for indigestion, dyspepsia, gastritis, sickness or other such troubles should get a package without delay.

To ensure getting the remedy doctors prescribe, look for the "BISMARCK" oval on the package when buying.

HONGKONG, 10th June, 1925.

## COMMITTED.

This week will be written down in the annals of European history as one of the most important since the Armistice, for it sees the Allies of the late war definitely in agreement as regards mutual protection against a revived and possibly dangerous Germany. It sees Britain committed to another continental campaign in case the frontiers of France are menaced as they were in 1914, going to the assistance of the French, in the words of one report, "with her entire naval, military, and air forces." Thus, after much beating about the bush, considerable hedging, and long drawn out hesitation, the decision has been taken, and the Empire is finally committed to the guaranteeing of the Versailles Treaty terms, else the whole might of the Imperial Commonwealth can be called upon to intervene. We of course presume that the action by the British representative in agreeing to this form of security guarantee is backed up by the expressed acquiescence of the Dominions, which were consulted over a period of several months.

Writing before we have seen any other comment on the subject, we feel sure that the decision will not pass without much adverse criticism from various quarters. The chief policy of certain sections of political thought in Britain and the Empire has been to avoid any future continental entanglements as much as possible, so that the security pact in its present form, with Britain committed to active intervention with all her armed forces in case of the Rhine frontier being violated, means a direct challenge to the advocates of insularity. It is essentially the decision of the Conservative Government, and therefore gives the opposition factions a lever with which to attempt to overthrow it when opportunity offers.

No doubt the British Government has carefully considered all the aspects of the problem presented by European economic and political affairs in their relation to permanent peace. If the support of the Empire were

all that remained to ensure the security of France, the appeasement of the threatened nations, and the removal of uncertainty and nervousness from the continent, then we can trust that the pact will prove acceptable to all concerned, and that the very wisdom of the British undertaking will suffice to prevent any breach of the peace, so that our fighting forces might never require to be called upon to undertake another extensive European campaign.

## Well-meant, but—

If there is one thing more than another which gives cause for annoyance to Britishers in the Far East in these restless times is the well-meant but obviously ill-founded advice which individuals at home have the temerity to offer on Chinese problems with which they have not the least practical or first-hand knowledge. Yesterday a telegram came through containing some opinions of the Bishop of St. Albans, in the course of which that reverend gentleman attributed unrest in China mainly to the appalling conditions prevailing in industry "and the fact that many Europeans have sought to make money out of China without considering the native." If this Bishop knew conditions in the East, he would hardly give voice to such palpably absurd views. Whilst we do not deny that industrial conditions in China are far from what they should be, and whilst there may be Europeans of the type mentioned, it is ridiculous to attribute Chinese disturbances to these factors. Military ambition and the scramble for power by rival groups of Chinese politicians are notoriously the main causes of these upheavals, and people like the Bishop of St. Albans ought to know better than to hint at imaginary foreign oppression being responsible therefor. The spoken thoughts of this type of individual would do no harm were they confined to the little circle in which these folk live, but in these days of telegraphic news services the publication, broadcast of such opinions are not likely to contribute to the cause of concord. Similarly, when British Trade Unionists so far pay heed to Chinese strike committees as to demand that British armed forces shall be withdrawn from Shanghai, we could only wish they knew something of the subject upon which they presume to offer advice. If a few of these Labourites had their homes in the International Settlement at Shanghai, they would hardly be so keen on asking that the means of protection to foreigners be taken away.

## Dangerous.

The other day, a correspondent drew attention to the nuisance often caused by dirty water and other objectionable things being thrown from verandahs, to the annoyance of passers-by. There is, however, an even greater evil which should be legislated against, and that is the placing of big pots of plants on verandah balustrades on high buildings. A reader informs us that recently he was passing along by Alexandra Building when one such pot fell from several storeys up and just missed him by a few feet. He says (and this is obviously so) that if the pot had struck him on the head, he would in all probability have been killed. Without looking the matter up, we do not know whether this placing of big flower-pots in such positions, without being in some way kept in place, is contrary to bye-laws. If not, it ought to be. At any rate, we give this publicity to the matter in the hope that the authorities will see to it that some means are devised whereby pedestrians are protected from such dangers.

## ANOTHER SNAKE STORY.

TALE OF A CHILD'S DEATH. The Chinese newspapers yesterday reported the death of a Chinese child from the effects of an encounter with a large snake in Wongneichong village.

It was stated that whilst in a small vegetable garden plot at the rear of the village, a snake of an unusual size attacked the child, and though it did not actually inflict any bite, the fetid breath emitted by the reptile was enough to cause effects from which the child later died. It was added that the snake was frightened off by the approach of some villagers,

## DAY BY DAY.

AN EFFORT MADE FOR THE HAPPINESS OF OTHERS LIFTS US ABOVE OURSELVES.—Mrs. L. M. Child.

There was a clean bill of health in the Colony yesterday.

Major A. L. Cruikshank, D.S.O., R.A., has assumed Command of the British Heavy Batteries, Royal Artillery, vice Major W. P. A. Hattersley-Smith, D.S.O., R.A.

In the report of the case in which a young Chinese was yesterday sentenced for snatching a purse from Miss W. Riddell, the age of the lad was wrongly given as seven years; it should have been seventeen.

The water return shows that on the last instant there were 893.98 million gallons in storage on the Hongkong side, compared with 1,286.40 millions on the same date a year ago. For Kowloon the respective figures are 146.36 and 204.88 million gallons.

Whilst at work in the Taising Paper Mills, at Aberdeen, a Chinese coolie tripped and fell on the ground. A bale of paper weighing 160 lbs., which he was carrying on his shoulder, fell across his back and injured his spine. He was taken to the Government Civil Hospital.

At a meeting of the Old Boys St. Joseph's College, held at the College last night to discuss arrangements for the celebration of the Golden Jubilee of the College, the Rev. Brother Almar, Director, who presided, stated that it had come to his knowledge that H.E. the Governor would be pleased to open the new Halls before his departure. He was only too glad to comply with His Excellency's desire and had requested His Excellency to perform the ceremony on the 24th June, at 5.30 p.m.

## MACAO RECEPTION.

AN ENJOYABLE FUNCTION.

(Our Own Correspondent).

Macao, June 8. The well-known Chinese millionaire, Mr. Lu Lim-lok, on Saturday gave a big reception at his residence, in return for the congratulations extended to him recently when he received from the Portuguese Government the "Ordem de Christo" in recognition of his many services to Macao. Amongst those present were the acting Governor, his wife and daughter, as well as many leading officials. In all, over 500 guests assembled. The gardens were very beautifully illuminated, the lakes being especially pretty with their myriad lights amongst the flowers. Supper was served, an excellent menu being provided by the Hongkong Hotel, whose orchestra rendered a fine programme of dance music. The guests were received by both Mr. and Mrs. Lu Lim-lok, who as usual were lavish in their hospitality.

## TRADE MARK CASE.

800 BAGS OF UNCLAIMED FLOUR.

In a trade marks prosecution brought before Mr. S. B. B. McElderry, at the Central Magistracy this morning, Mr. H. B. L. Denny represented Messrs. Skott and Company in a claim for the misuse of their "Battle-ship" registered mark, on a consignment of flour shipped here on behalf of various importers by the China Merchants Steam Navigation Company.

No claims had been put in for the seized consignment, which amounted to 800 bags, and Mr. Denny asked his worship to make an order for its confiscation and to allocate a certain proportion of it cover the costs of the prosecution. He reminded his Worship that a similar order was made by Mr. R. E. Lindell in 1919. Mr. Wadson, who represented the China Merchants Steam Navigation Company, also asked for a proportion of the flour to cover the cost of storage.

His Worship said it was necessary to discover the owners of the flour before he could make the order, and suggested to Mr. Denny that an advertisement should be inserted in the newspapers in this connection. Meaning he admonished the case *sine die*.

## PLAY AND PLAYERS.

BASEBALL BREAKS OUT ON SATURDAY.

By "Wanderer."

Of wordy wisdom on the prospects of a forthcoming season in connection with almost any sport, it can usually be suggested that it proves anything, if the writer is lucky; and nothing, if he is not. Yet, I think it can be said with reasonable certainty that the Hongkong Baseball League is about to embark on a new season of travail with everything pointing to the most successful season in its history. Not a long history, 'tis true, but we'll let that pass.

The opening game of the season will be played on Saturday, when the Hongkong Baseball Club oppose the Japanese nine. His Excellency the Governor has been invited and it is hoped that he will bring his cricket arm into use again long enough to toss out the season's first official affirmative.

The race this year is cluttered up with more dark horses than you could shake a peek of oats at, with the Yankees, Volunteers and Chinese stampeding over one another in their intentions of attaining to the rarified atmosphere of the leaders of the top half of the table.

As last year, the duration of League games will be seven innings. Official umpires have yet to be appointed, but it is hoped to obtain the services of the best available exponents of the game to take charge of the matches.

## BASEBALL POSERS.

The principal reason for lack of interest in ball games, as far as the British population is concerned, is the fact that they regard baseball as a glorified game of rounders, and do not understand the rules. It has been suggested that I should occasionally give posers on the rules, and their answers, in order that the game might become better understood.

Poser No. 1.—Runners are on first and second. The pitcher prior to delivering the ball to the batsman makes a deceptive move toward first base, which the umpire rules a balk.

The pitcher, not aware that the umpire has so ruled, delivers the ball to the batsman, who hits over the left field fence for a home run. The score at the time was 4 to 2 in favour of the team in the field. Three runs crossed the plate on the drive over the fence, apparently putting the team at bat into the lead, 5-4.

What is the proper ruling on such a play?

Answer.—When the umpire ruled that the pitcher had made a balk, play was immediately suspended.

The fact that the pitcher did not hear the call of balk and delivered the ball to the batter, who in turn hit it over the fence, cannot be given any consideration.

No action was possible after the call of balk. It rendered the home run void. The ball was dead when delivered to the batsman.

The only ruling possible was to make the batsman hit over and advance the runners on first and second to second and third.

## BIG FIGHT SHOULD COME ON SOONER.

It is almost universally agreed that the Hongkong Boxing Association would do well to put on their big fights earlier, yet tournament after tournament, in spite of consistent comment on the question, the principal fight which the public has come to see, is hoarded up until the end. The most convenient time for the fight would be the first after the interval, and the boxing committee should consider the wishes of the public in this respect. The last tournament ended some half an hour after midnight, and think of the nightcaps that many were obliged to forgo!

## COMPULSORY FOOTBALL.

Proposal that football be made a compulsory sport in certain public schools is the latest suggestion advanced to relieve the Philippines of the necessity of taking a terrific beating at the hands of the Chinese at the Olympic Games staged every two years.

Advocates of the plan, who were closely associated with the organization of the team which represented the Philippines in the Olympiad just completed, point out that soccer football is the only true international game in the world and that as such its development in the islands should be encouraged.

Not even baseball is so widely played as football and no other sport requiring team play rather individual effort even approaches it in its international scope.

It is proposed that in the schools bordering upon Manila, and around Iloilo and Cebu football be made compulsory and further that it become a regular department of the annual B. A. A. F. championships held in Manila during Carnival Week.

Everything that can be done to popularize football is to be undertaken as soon as possible and no effort be spared to bring about rapid development.

## BREVITIES.

Le Guillou, the French boxer who was to have met Pte. Williamson, of the Surreys at Saturday's boxing tournament, injured himself whilst working on the Vilgante yesterday and will be unable to appear. It is hoped to obtain another opponent for Williamson.

Though John Duncan, of Leicester City, found the thorn near the rose—he was badly injured in the last match—there are two things of which he has a right to be proud. He was captain of the most prolific scoring team of the season, and he stands alone as the only first-class player to obtain six goals in one match.

The results of matches played in the Garrison Tennis League last week were as follows: Small Units beat "A" Co., East Surrey Regt. by 55 to 44. R.A.O.C. beat H.Q. Wing, East Surrey Regt. by 58 to 41. R.E. "B" beat "B" Co., East Surrey Regt. by 86 to 13.

## CHINESE LOANS.

INTEREST WANTED.

London, June 9. A deputation representing British holders of the Marconi and Vickers eight per cent. Chinese Loans waited on the acting Chinese Minister at the Legation in London yesterday and made representations regarding the Peking Government's failure to pay interest thereon.

Dr. Chu replied sympathetically and assured the deputation that it was the intention of the Chinese Government to meet its obligations on these Loans at the earliest possible moment.—*Reuter*.

## RIFFS ACTIVE.

ATTACK FRENCH POSITIONS.

Fez, June 9. Enemy incursions in the Loukous district continue.

The French advance posts at some points have fallen back in good order.

Enemy efforts to penetrate the French lines south of Worgba were beaten off with heavy losses.—*Reuter*.

## NEW STEAMER.

FOR MACAO RUN.

We are informed by the Secretary of the Hongkong Canton and Macao Steamboat Co., Limited, that the Directors of the Company have decided to build a fast steamer for their Macao-Hongkong service, and local shipbuilders are being invited to tender for the construction of the vessel.

## SOVIET REPRIEVE.

Moscow, June 9. The execution of Belavin, Ivanoff and Madame Krzecz-kovska has been suspended.—*Reuter*.

## NEW TREATY.

Amsterdam, June 9. A new Dutch-Spanish Treaty of Friendship, Commerce and Navigation, based on most favoured nation treatment, has been signed at the Foreign Ministry at the Hague.—*Reuter*.

## INDO-CHINA CO.

HEAVY LOSSES FOR  
THREE YEARS.

## NO DIVIDEND.

The extremely depressed state of trade in the Far East and the consequent loss of earnings by shipping companies was the main theme of the Chairman's speech at the forty-fourth ordinary general meeting of the Indo-China Steam Navigation Company, Ltd., held this morning at the offices of the general managers, Messrs. Jardine, Matheson and Co., Ltd. Mr. D. G. M. Bernard presided and there were also present the Hon. Mr. A. O. Lang and Mr. A. H. White (Directors), and Messrs. E. F. Aucott, J. Fleming, Ho Shai-ki, Ho Kwong, Ho Leung, Li Yun-kun, Ho Tang-ying, Fung Hun, F. C. Hall, A. Murdoch, N. L. H. Railton, Ho Ki, W. Galloway, A. M. da Silva, R. E. Macdougall, A. Piercy, E. B. C. Hornell and H. Birkett (shareholders).

## CHAIRMAN'S SPEECH.

Mr. Aucott having read the notice convening the meeting, the Chairman said:—Gentlemen,—The report and statement of accounts have been in your hands for some days, and with your permission I will, as customary, take them as read. Your Directors regret that the result of last year's working is again so unsatisfactory. The conditions with which all shipping companies operating tonnage in Far Eastern waters have had to contend during recent years have been deplorable, and the year under review has been no exception. From January until March there were welcome signs of activity in the charter trades, and rates were not altogether unfavourable. There was, however, an abundance of tonnage available, as in addition to the large number of miscellaneous steamers usually employed in southern charter business, numerous vessels under time charter to Japanese owners, found their way into the Saigon and Bangkok trades owing to their inability to find remunerative employment in their own waters, as a result of the disastrous earthquake in Japan in the latter part of 1923. From April onwards, rates began rapidly to decline, and other contributory causes to the severe depression in trade which set in about that time were the poor rice crops in Siam and Indo-China, and political troubles throughout China. The civil war, which broke out in North China during the second half of the year, caused a considerable amount of Chinese-owned tonnage to come South apparently in order to avoid the possible risk of requisition by Chinese military officials, and competition in all directions became still more active. The Bangkok-Hongkong berth rate from April onwards remained almost stationary at 35 cents per picul inside the bar loading, which is the lowest average figure on record since pre-war days, whilst the Saigon-Hongkong rate, the governing factor in arriving at the condition of southern charter

business, remained during the greater part of the year at a very unremunerative level, falling in November to the ridiculous figure of 8 cents per picul.

## KEEN COMPETITION.

Under these conditions it will be readily understood that the supply of tonnage was greatly in excess of the demand, the consequence being an intrusion of outside steamers into several of our regular berth trades, and, in cooperation with other friendly companies, it was unfortunately necessary at times, to reduce our tariff rates against these competitors to an unprofitable scale in order to maintain our position in the regular trades. Although there was a fair movement of cargo in North China during the early months of the year, excessive competition was experienced with a consequent depression of rates in nearly every direction. The tense political situation towards the end of August, which led to the outbreak of hostilities between the Provinces of Kiangsu and Chekiang, and subsequent war between the larger factions in the North, materially affected the usual autumn demand. Every effort was made, however, to maintain, and where possible to increase, the level of rates current during the previous year. In some directions the agreements concluded last year with competitors in our regular trades, which matter I referred to at our last annual meeting, have borne good results, and others are still under discussion. These negotiations are of an important nature, and it is hoped a satisfactory settlement will be reached in the near future.

## THE COMPANY'S FLEET.

With regard to the question of tonnage, your Directors took advantage of a favourable opportunity to dispose of two of the Company's old steamers, the Taisang and Wingsang, which had become unsuitable for the requirements of our business. They were sold at prices which showed a fair profit on their book values. Reference is made in the report to the purchase of the s.s. Barrymore now renamed Kumsang, of 3,447 gross tons, in 1920. This vessel arrived from England in November last, and after undergoing necessary alterations to fit her for the Calcutta Line requirements, commenced her regular employment thereon in January last, and has so far proved an excellent addition to the Company's fleet. The new steamer Lionsing, 2,416 gross tons, built by the Hongkong and Whampoa Dock Co., for Shanghai-Tientsin run, was delivered by builders during the month of May. She is an exceptionally fine coaster, being fitted with the very latest cargo handling gear, and having superior passenger accommodation. Since being placed on the run, she has become a very popular vessel.

## THE YANGTZE TRADE.

In view of the steady expansion of shipping business in the Yangtze River, in which this Company is very largely interested, your Directors considered it necessary to acquire an additional steamer to operate on the Middle Yangtze between Hankow and Ichang. The order for the vessel

was placed with the Hongkong and Whampoa Dock Co., and it is hoped to have her ready for service about October next. It was also found necessary to purchase another towboat and six lighters to act as feeders to our steamers at Hankow. These have recently been delivered by builders in Shanghai, and are now in commission.

As regards the Upper Yangtze trade, I regret to state we have experienced further trouble with the Fuhwo. After being re-conditioned under the supervision of an expert sent out from Home by the builders, she resumed her run between Ichang and Chungking. Later in the year, however, she met with a mishap by breaking a shaft, which necessitated her return to Shanghai. Stronger shafting is now being fitted, and it is hoped she will shortly be in commission again.

Our new steamer Kingwo, also running on the Upper Yangtze has I am glad to say, proved a decided success, and has performed excellent service. Conditions in the Ichang-Chungking trade during the year under review were more favourable. It is satisfactory to note that very little fighting took place on the river itself, and there were fewer cases of firing upon steamers, a practice which has been so prevalent in previous years. Your Directors regard the development of this line as most important, not only for itself, but as a feeder for our other river boats, and to strengthen our position they decided to augment our tonnage by another steamer. This is being constructed by the Kiangnan Dock and Engineering Works in Shanghai, who built the Kingwo, and the vessel is expected to be completed in July.

I am glad to be able to state that no casualty of a serious nature occurred during the year under review, and our thanks are due to the staff, both ashore and afloat, for willing and valuable services rendered. It is with regret that your directors have to record the death of the Hon. Mr. A. R. Lowe, who had filled the position as auditor to the Company for some years past; also of Captain P. T. Wheeler, the Company's late Marine Superintendent at Hongkong. The benefit of Mr. Lowe's advice in connection with the accounts has always been very keenly appreciated. Captain Wheeler served the Company well and faithfully for a period of 29 years, and showed marked ability in the performance of his duties as Marine Superintendent to which post he was appointed in 1919. I feel sure you would wish to express to the relatives of these gentlemen, whose loss is much deplored, the Company's deep sympathy with them in their bereavement.

## LARGE LOSSES.

Turning to the statement of accounts, you will notice that Building Reserve Account has been increased by £12,363.72, which represents the gain on the book values on the sale of the Taisang and Wingsang already mentioned. Securities have been sold during the year to defray the cost of new tonnage and to pay for current expenses. The profit on the sale of these investments amounted to £17,705.12.11, and has been transferred from Investment Fluctuation Reserve to Revenue Account. The sum of £191,000 has also been transferred from Contingency Account to Revenue Account, leaving a balance of £944,137, which it is proposed to carry forward. The losses during the last three years have been very large, and as there is no indication that we have yet come to an end of our bad times, your Directors considered it would be wiser not to declare a dividend on the Preferred Ordinary Shares, and a note that this is a liability of the Company appears in the balance-sheet. Their action will, I trust, meet with your approval.

With regard to the future, gentlemen, I can only say that competition is still very keen, rates of freight remain at low level, and business generally is in a depressed condition. A return to prosperity, as you must well realize, depends very largely on a final cessation of the continual civil commotion in China, the prospects of which unfortunately appear to be remote. In one or two instances our operating costs for the current year are likely to show a reduction and with the anticipated conclusion of satisfactory agreements with our competitors already referred to, it is hoped our results for 1925 will be more favourable. I now beg to propose the following resolution:—"That the report

GORDON BENNETT  
RACE.PREVIOUS WINNER COMES  
DOWN.

London, June 9.

The French balloon Grand Charles, competing in the Gordon Bennett race, descended in the Channel and sank. The occupants were picked up exhausted and sent to hospital.—*Reuter.*

Brussels, June 9.

The French balloon Picardie landed at Anneville in the department of Manche.

A message from Quimper, in the department of Finistère, states that the Belgian balloon Belgica, piloted by DeMuyter, who won the Gordon Bennett Cup outright in the past three years, has landed near Quimper.—*Reuter.*

and statement of accounts, as presented, including the transfer of £17,705.12.11 from Investment Fluctuation Reserve Account and £191,000 from Contingency Account to Revenue Account be adopted, and that the sum of £944,137 be carried forward to next year's account." As soon as this resolution has been seconded, I shall be pleased to reply to the best of my ability to any questions which shareholders desire to ask.

**BUSINESS MATTERS.**  
The resolution was seconded by Mr. Birkett and unanimously agreed to without discussion.

On the proposition of Mr. F. C. Hall, seconded by Mr. Ho Kwong, the Hon. Mr. A. O. Lang and Mr. A. H. White, the retiring Directors, were unanimously re-elected.

Mr. John Fleming and Mr. A. Ritchie were re-elected auditors for the ensuing year at a remuneration of \$5,000.

The proposal was made by Mr. Ho Leung and seconded by Mr. Galloway and unanimously carried.

This was all the business.

## DI PINEDO'S FLIGHT.

DOES 15,000 MILES IN  
145 HOURS.

Melbourne, June 9.

Di Pinedo in arriving here had covered fifteen thousand miles of actual flying time in 145 hours.

He remains in Melbourne three weeks, to overhaul his engine.—*Reuter.*

U. S. MINE  
EXPLOSION.

Sturgis, Kentucky June 9.

It now appears that seventeen miners may be entombed by an explosion in the West Kentucky Coal Company's mine. There is practically no hope of rescue alive.—*Reuter's American Service.*

RUSSIAN RAILWAY  
DISASTER.

Moscow, June 9.

The Chita-Moscow express has been derailed near Novo Nikolavsk. Three persons were killed and 14 injured.—*Reuter.*

## FRANC RALLIES.

London, June 9.

Following M. Caillaux's warning to speculators, French francs rallied smartly and have closed at 98.20 to the pound sterling.—*Reuter.*

**Radio Notes & News.****Television by Sound: Dr. D'Abbe's New Method.**

Dr. Fournier d'Abbe has completed an apparatus which he believes will materially advance the study of television. It has been privately exhibited at Westgate House, Kingston on Thames. Designed to transmit 30 simultaneous sounds independently of one another on the same radio-wave-length, and to separate them at the receiving station, it is not yet sufficiently amplified to attempt the reproduction of actual daylight scenes. Artificial light was used, and only the rough outlines of moving objects were transmitted to the receiving station in another room.

Dr. d'Abbe's method consists in converting the picture or scene which is to be transmitted into a number of musical sounds, each note representing an element or patch of the picture. The notes are all transmitted simultaneously, over the same wire, or on the same radio wave-length. At the receiving station the notes are reconverted into light by means of special compound resonators invented by Dr. d'Abbe. Each resonator consists of a hollow vessel with an opening over which a mica reed is mounted. The reed is provided with a small mirror, and when the appropriate note occurs in the sound transmitted the reed vibrates, and produces a patch of light on a ground-glass screen. This patch reproduces one element of the original picture.

The apparatus at Westgate House is limited to 30 different patches and the same number of resonators. Before a recognizable picture can be transmitted a larger apparatus must be constructed, for a single human face requires at least 400 elements or patches of light to appear on the screen. The conversion of the original picture into sound is made by a revolving disc having many circles of small holes. Selenium cells are placed at different points in the optical image of the disc, and so arranged that each cell is illuminated by intermittent light of a different frequency. A two-valve amplifier converts the electric pulses furnished by the selenium cells into sounds.

Dr. Fournier d'Abbe is shortly to describe this method to a meeting of the Radio Society of Great Britain.

**SLOW BUT SURE METHODS.**

Empire Chain Linked Up by End of Year.

Imperial wireless has had a set-back so far as the "Beam" system is concerned.

This fact emerges from a letter from the Postmaster-General to the Empire Press Union, in which he states that the sending and reception of messages for one site only was agreed to be impracticable.

By a supplementary agreement, however, sites for communication with Canada and South Africa have been secured at Bodmin and Bridgwater, and these stations are to be completed by October. Sites have also been selected for the stations for communication with India and Australia.

The high-power station at Rugby, according to the P.M.G.'s letter, will be completed about November.

Moreover, the Dominions and India have been invited to nominate representatives for a Permanent Committee under the chairmanship of the Assistant Postmaster-General to advise on the practical details of the working of the Imperial wireless services.

**HOW WAVES ARE CAUGHT.**

Wireless Energy That Is Wasted.

Ether is the medium which enables a wireless transmitting station to be heard at a wireless receiving station.

Although wireless waves can penetrate solid things such as buildings, light waves, which are also conveyed by the ether, cannot do so. This is because light waves differ greatly in length from ether waves.

Standing on the beach you can see a series of sea-wave crests. The wave-length is the distance between one crest and another. Now in wireless the waves length compared to light wave lengths are quite large. Light waves are extremely short.

For example, 2LO broadcasts on a wave-length of 365 metres, and by that is meant that the distance from the top or crest of one wave to the crest of the next wave is 365 metres. A light wave, however would be but an

extremely small fraction of an inch in length.

If you stand on the end of a pier and drop a wire into the water, waves will pass you by, and in doing so will leave a minute fraction of moisture on the wire.

So it is when you put up an aerial in your garden to receive broadcast concerts. The ether waves are everywhere, and a minute fraction of the electromagnetic energy transmitted by a broadcasting station is picked up by your aerial, but this fraction is so small that it does not mean that the energy transmitted will be all used up because thousands of other aërials are tapping the ether waves.

FLAPPER FANNY says--

The first broadcaster was the first woman who kissed and told

UNITED THROUGH RADIO.

Twenty-one years ago Mary McIlvain left her widowed father, James W. McIlvain, to live with a grandmother. That was the last she heard of him despite many years searching. The other day as a last resort she broadcast her story from Philadelphia. An uncle in Upland, Pa., heard her, notified her father, and the happy reunion is shown above.

## WHERE THAT GLOOM GERM LIVES.

When you feel out of temper with everybody and every thing, when you find work a worry and life seems full of gloom, look to your liver, for that most likely is where the trouble lies, and take a dose of Pinkettes, for therein is the remedy.

Laxative perfection. Pinkettes gently stimulate the liver, dispel constipation, banish bilious attacks and sick headache, clear the skin and purify the breath. Try them tonight; you'll feel better in the morning. Of chemists, or post free, 60 cents the vial, from Dr. Williams' Medicine Co., 60 Kiangee Road, Shanghai.

## POPULAR SINGER.

The lyric tenor, Mr. Edward Johnson, who arrived from America on board the str. President Jackson, has been greeted with a barrage of luncheons, receptions and dinners at Tokyo. The American Ambassador, Mr. Edgar A. Baneroff, gave him a riffin at the Imperial Hotel. Mr. J. R. Geary also gave a dinner, and Mr. D. H. Blake is giving a luncheon for him. Apart from these there were to be other social functions in Mr. Johnson's honour. The tenor is coming on to Hongkong from Shanghai.

## CONSIGNEES.

## WEATHER REPORT.

June 10d. 12h 35m.—Pressure  
has decreased slightly over  
the Visayas, Japan and Guam, and  
increased slightly to moderately  
elsewhere. It is highest to the  
north of Japan and relatively low  
over Tonking and the northern  
China Sea. The depression over  
the Loochoos appears to have  
partially filled up.

Hongkong rainfall for the 24  
hours ending at 10 a.m. to day,  
0.00 inch. Total since January  
1st, 25.82 inches, against an  
average of 28.41 inches.

FORECAST FOR THE 24 HOURS  
ENDING AT NOON TO-MORROW.

District.	Forecast.
Formosa Channel	N. winds, moderate.
South coast of China between H.K. & Lamooks	E. winds, moderate;
H'kong to Gap Roek	fair.
South coast of China between H.K. & Hainan	fair.

C. W. JEFFRIES, Director.  
Hongkong, June 10.

## THE KUOMINTANG

CHARGE OF COMMUNISM  
REFUTED.

## WHAT DR. WU SAYS.

A short time ago the *Telegraph*  
published an interview which one  
of its representatives had with  
Mr. Ma Sso, relative to the spread  
of Russian Communism in  
Kwangtung. Yesterday we were  
given an opportunity of meeting  
and hearing Dr. C. C. Wu, Foreign  
Minister in the Canton  
Government, from whom a state-  
ment was obtained which came  
as a complete refutation of the  
charges levelled against the  
Kuomintang Government. Dr.  
Wu defended the policy of his  
Government, and also held out  
a promise, on behalf of his col-  
leagues, that should the fortunes  
of war enable them to re-establish  
themselves with the ruins of  
Government more firmly gripped  
in their hands, a big reconstruction  
programme would be put into  
effect. Mr. Sun Fo was also  
present at the interview.

## RUSSIAN FRIENDSHIP.

The interview commenced by  
Dr. Wu defining the present issue  
as not one between the Commu-  
nists and Anti-Communists, but one  
between a good Government and  
a bad Government. Developing  
these two points, he went on to  
state that the talk of Communism  
being apparent in Kuomintang  
activities, was due in the first place  
to the Government's friendship  
with Russia, which was admitted.  
Inherent in the heart of a Chinese  
patriot, he said, is the ardent  
desire not to be treated arrogantly,  
as a race occupying an inferior  
status, but to be treated on terms  
of equality; and, having treated  
them on terms of equality, the  
Russians have qualified for their  
friendship, which is more than  
the other nations have  
done so far. That friend-  
ship and equality of status  
have been expressed, said Dr. Wu,  
by the return by Russia of extra-  
territorial rights and other  
privileges of her own accord,  
and not, as in the case of  
Germany, because of the terms  
extracted from a defeated nation.  
Such being the case, the Govern-  
ment has every reason for being  
friendly with Russia, and of that  
friendship the Government had  
no cause to be ashamed.

Communism, in the view of Dr.  
Wu, is largely a matter of in-  
ternal government and does not  
enter into the question of foreign  
relations at all. Whether Com-  
munism is good for Russia or  
whether Russia has actually  
adopted Communism or not, can  
be learned only from experience;  
and the report of the British  
Labour delegation to Russia  
stated that that country had  
given up Communism and was  
now engaged in a form of State  
Socialism. However, says Dr.  
Wu, this is merely by the way,  
and does not concern the  
Kuomintang Government. To  
use a familiar phrase, one man's  
meat may be another man's  
poison, and because the Govern-  
ment had been friendly with Com-  
munist Russia it did not follow  
that it was Communistic or had  
Communist leanings.

It has been realised, said Dr.  
Wu, that Communism is not  
suited to China, and in taking  
up the reins of government in  
Canton the Kuomintang retains  
its own principles, which are  
neither part nor parcel  
of the principles of Lenin or Karl  
Marx. Dr. Wu's point, which  
he said he could not stress too  
strongly, was that this friendship  
of the Government for Russia  
was not due to any desire or  
inclination to adopt the principles  
of Bolshevism. He pointed out  
that France concluded a Treaty  
of Alliance with Russia in  
the last century. France was  
then a Republic and Russia  
adhered to an absolute  
form of monarchy, the two  
countries representing the very  
opposite to each other in form of  
government, and yet at that time  
it was not proclaimed that because  
France had entered into an  
alliance with Russia she was  
going to adopt Czarist principles.  
Why the Kuomintang Government  
should be accused of Communism  
in its relations with the Soviet  
Government is more than Dr. Wu  
can understand, having regard to  
the reasons he has advanced for  
that friendship.

## "ENEMY" PROPAGANDA.

The widespread attention given  
to this so-called Communism  
is attributed by Dr. Wu  
to the effects of enemy pro-  
paganda, and he went on to trace  
one of the reasons for this belief

(Due Marseilles 12th July.)

to a period dating back to three  
years ago, when a number of  
Chinese Communists applied to  
Dr. Sun Yat-sen for admission to  
the Kuomintang. In permitting  
them to join the party, Dr. Sun  
said that the Kuomintang was  
open to everyone, whether they  
were Communists, Monarchists  
or anti-Kuomintang, but that it  
must be understood first of all  
that once enrolled in the party  
they had to accept its principles;  
and now just because a few  
notorious Communists had been  
permitted to enter the Kuomint-  
tang, it was being said that the  
Kuomintang had turned Com-  
munist. That was perfectly  
erroneous, said Dr. Wu. "The  
point to be clearly understood,"  
remarked Dr. Wu, "is that  
they were only admitted  
on the understanding that they  
must accept Kuomintang prin-  
ciples. Now, it is possible  
that these few Communists have  
not always been faithful to their  
pledges, but that may have been  
due to the lack of discipline on  
the part of the Kuomintang  
leaders."

"It may be asked at this  
stage," continued Dr. Wu "how  
this statement can be made con-  
sistent with the presence  
of so many Russians in  
the Kuomintang Army. It is  
admitted that there are Russians  
in the Army, but they are em-  
ployed in the capacity of military  
experts, the value of whose ser-  
vices has been instanced by the  
successful campaign in the East  
River district against the forces  
of General Chan King-ming. The  
Government has therefore been  
justified in using these officers  
for the purposes of their military  
operations. Regarding the report  
of our receiving money from  
Russia, I can only say that, not  
being a member of the party at  
the time, I had no knowledge of  
it, but I can say from certain  
knowledge that the Kuomintang  
is not getting a single cent from  
the Moscow Government at  
present."

Dr. Wu added that it is desir-  
able to state the true position  
of the Government, and for this  
purpose, a congress of the Kou-  
mintang Party will be held on  
the 15th. August in Canton, at  
which it will be made abundantly

clear what the relations and policy  
of the Kuomintang Party are.  
"It is now made clear that  
the real issue is one be-  
tween a good and a bad Govern-  
ment in the present crisis.  
Those Yunnanese and Kwang-  
tung troops, with their command over  
the essential sources of revenue,  
are exercising a stranglehold  
over the province in withholding  
funds that should have gone to  
the development and reconstruction  
of the Province. Millions  
have been sent back to Yunnan.  
Enquiries through the Chinese  
exchange banks will verify this,"  
said Dr. Wu.

A NEW TURN  
Dr. Wu went on to say that the  
military incubus is paralyzing  
the province, and conditions have  
become such that they cannot be  
referred to without shame by the  
members of the Government.  
Money has gone to fatten the  
soldiers of other provinces until  
they have become bloated, and it  
is hopeless, says Dr. Wu, to expect  
peace and order until the Province  
is rid of them. Of late, Dr. Wu  
added, there has been a turn in  
the situation in favour of the  
Government, which has now  
made common cause with Chan  
King-ming's old troops, (com-  
manded by Yeung Kwan-yue,  
the famous defender of Watchow),  
and with a number of prominent  
generals who hitherto have  
kept aloof from Canton politics.  
General Ngai Bong-ping was men-  
tioned by Dr. Wu as one of these  
Generals, whose support, he said,  
will be of great moral effect.

"With the Cantonese ele-  
ments regaining control of the  
Province it is our programme to  
go in for good constructive Govern-  
ment. We are staking our  
career and our reputation on it.  
What I am stating now represents  
the considered views of the  
Government. When we can put  
our programme into operation we  
will carry it through or get out. It  
is no good to carry on as we have  
been doing for the past few years  
—getting money from the people  
to give to the soldiers and military  
factions until they become fat  
while the essential works of  
Government are starved."

Dr. Wu has just returned from  
a visit to Swatow and says he  
expects to go up to Canton in a  
day or two.

## GERMAN POLITICS.

Berlin, June 9.

There is bitter opposition  
on the part of Socialists and  
Democrats in the Reichstag to  
motions giving the President the  
right to confer titles, thus cancel-  
ling the laws for the protection  
of the Republic.—*Reuter*.

MALAY CHIEFTAIN  
AT WEMBLEY.

London, June 9.

The Yam Tuan Besar of Negri  
Sambilan, one of the Federated  
Malay States, paid a state visit  
to the Malaya pavilion at  
Wembley this morning, and had  
luncheon with the staff.—*Reuter*.
